

Stool or drink stand

1. Vocal Mic (Shure Beta 58 or equivalent)
2. Guitar Mic (Condenser)
3. DI (LR Baggs or equivalent)

Note: The condenser mic should not be run through the monitors. Bob likes his guitar and vocals very HOT! The monitors will ideally be bi-amped. Also, when at all possible, the sound check should be closed to the public.

Thanks for your effort! See you at the show!
